[linkedin.com/in/nattha-chaiyarin-419b2837a](https://www.linkedin.com/in/nattha-chaiyarin-419b2837a)

Software Engineer with 4+ years of experience building full-stack applications with ASP.NET Core, C++, React.js, AstroWind, and Wix. Skilled in both front-end and back-end development, with a strong interest in user interaction, usability, and designing intuitive product experiences.

Skills

Programming Languages

- JavaScript/TypeScript
- C++
- Python
- SQL

Languages

- Thai
- English

Frameworks & Libraries

- React.js
- Node.js
- .NET CORE + EF
- Astro

Development Tools & Design

- Figma
- Wix

Experience

May 2022 - present **Software Engineer** | Mycos Technologies Co., Ltd.

- Developed and delivered features for a cloud-connected Restaurant Management and POS system, participating in feature planning and implementing full-stack solutions using React (TypeScript) on the frontend and ASP.NET Core (C#) on the backend.
- Designed and built commercial websites for organizational clients, focusing on UX/UI design, user flows, and responsive, user-friendly interfaces.
- Managed the end-to-end development and ongoing enhancement of a property listing platform using Wix and JavaScript, coordinating directly with clients to gather requirements, translate business needs into technical solutions, prioritize features, and oversee implementation and support.

Projects

Take Care - Hospital Care Guide Platform (Graduation Project)

Mobile-focused web application built with React (TypeScript) and GraphQL, connecting patients with hospital guides to support the Hospital Care Guide Service. (Currently inactive.)

My Role: Responsible for UX/UI design and frontend development.

HUAWEI CLOUD Developer 2021 (Student Group) - 1st Runner-up

Education

2018 - 2022 Bachelor of Engineering in Computer Engineering, Chiang Mai University - GPAX: 3.56
